Report On Review of Interim Condensed Financial Statements

To the shareholders of National Medical Care Company A Saudi Joint Stock Company Riyadh- Kingdom of Saudi Arabia

Introduction:

We have reviewed the accompanying interim condensed statement of financial position of **National Medical Care Company** "A Saudi Joint Stock Company" ("the Company") as of 30 September 2019 and the related condensed statements of comprehensive income for the three-month and nine- month periods then ended, statements of changes in equity and cash flows for the nine- month periods then ended, and a summary of significant accounting policies and notes to the condensed interim financial statements.

Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 "*Interim Financial Reporting*" that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim condensed financial statements based on our review.

Scope of Review:

We conducted our review in accordance with the International Standard on Review Engagements (2410), "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared in all material respects in accordance with IAS (34) endorsed in the Kingdom of Saudi Arabia.

- Family Health Care Center under commercial registration No, 1010397064 dated Muharram 29, 1435 (H) (corresponding to December 02, 2013).

The Company is engaged in the business to establish, own, equip, manage, maintain and operate hospitals, health centers and units. The Company also engages in wholesale and retail trade in medicines, medical equipment and supplies, representing its own companies and owns vehicles-medical equipped or unequipped that are necessary to perform its function. Furthermore, the Company engages in delivery of health services in all fields, as well as in rendering of services and operating businesses that assist in achieving or complementing its objectives. Additionally, the Company is engaged in owning lands and properties for its own benefit.

The Company's share capital of SR 448,500,000 is divided into 44,850,000 shares of SR 10 each. The Head Office of the Company is located in Riyadh, PO Box 29393, Riyadh 11457, Kingdom of Saudi Arabia.

The fiscal year for the Company starts on January 1st and ends on December 31st of each calendar year.

2. BASIS OF PREPARATION

a) Statement of compliance

These interim condensed financial statements have been prepared in accordance with International Financial Reporting Standards for Interim Financial Reporting, IAS 34 "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Certified Public Accountants (SOCPA) and should be read in conjunction with the Company's last annual financial statements for the year ended 31 December 2018. The accompanying financial statements do not include all the information that is required to prepare a complete set of financial statements in accordance with International Financial Reporting Standards.

The accounting policies adopted in the preparation of accompanying interim condensed financial statements are consistent with those followed in the preparation of Company's annual financial statements for the year ended 31 December 2018, except for the accounting policy of IFRS (16) leases as stated in note 3.

i) Basis of measurement

These interim condensed financial statements have been prepared using accrual basis of accounting, going concern concept and under the historical cost basis, except for employee benefits which are recognised at the present value of future obligation using the Projected Unit Method.

A Saudi Joint Stock Company

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS FOR THE THREE MONTH AND NINE MONTHS PERIOD ENDED 30 SEPTEMBER 2019 (UNAUDITED)

All amounts are presented in Saudi riyals unless otherwise indicated

ii) Functional and presentation currency

These interim condensed financial statements are presented in Saudi Riyals (SR) which is the Company's functional currency.

b) Accounting estimates

The preparation of these interim condensed financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

Except as described below, the accounting policies applied in these interim condensed financial statement are the same as those applied in the Company's annual financial statements as at and for the year ended December 31, 2018.

The Company has adopted IFRS 16 Leases from January 1, 2019. IFRS 16 replaces IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC 15 'Operating Leases-Incentives' and SIC 27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'.

IFRS 16 'Leases' introduces a single, on-balance sheet accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard – i.e. lessors continue to classify leases as finance or operating leases.

There is no significant impact on the financial statements of the Company due to application of this standard, as the Company does not have significant lease contracts.

4. PROPERTY, PLANT AND EQUIPMENT

During the period ended 30 September 2019, the Company has made additions of SR 8.8 million mainly relating to computer equipment (31 December 2018: SR 19.2 million).

During the period ended 30 September 2019, the Company has capitalized SR Nil from finance cost on property, plant and equipment (31 December 2018: SR 0.7 million).

The Company has land and buildings, with net book value of SR 340 million as at 30 September 2019 (31 December 2018: SR 350 million) pledged to the Ministry of Finance against a loan granted to the company (Note 7).

12. FINANCIAL INSTRUMENTS, FAIR VALUE AND CLASSIFICATION

Financial instruments recorded in the Company's statement of financial position consist of cash in hand and in banks, trade receivables and other debit balances, loans, trade payables and other credit balances.

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilize the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

In management opinion, the fair value of the financial instruments is substantially close to its book value. There were no reclassifications between the above three levels during the reporting period.

Classification of financial instruments
